🔗 TARGET ROLE

Software Developer — Web (MERN/Node) | Cloud & LLM-aware

👤 Profile

MERN-leaning developer with strong JavaScript fundamentals and recent hands-on work across React and Node/Express. Shipped a VAT Dashboard using PostgreSQL (Neon) with Drizzle ORM; comfortable with REST, validation, and version control. Currently expanding practical LLM usage with a recent real-project application. Keen on code reviews, documentation, and production standards at Craftsmen.

🧠 Core Skills

Frontend — React (components, hooks), HTML5/CSS3, responsive UI •

Backend — Node.js, Express (routes, middleware, validation, error handling), REST/JSON • **Database** — PostgreSQL (Neon), **Drizzle ORM** (typed schema, relations, migrations, indexes) • **Testing & Tools** — Postman, npm/yarn scripts, Git, GitHub, Git Bash, CI-ready repos • **Deploy & QA** — Git, GitHub, Git Bash, Postman (collections/env), npm/yarn scripts •

Deploy — Vercel (env vars, preview builds, logs) •

LLM (practical) — Continue + Claude 4.5, Ollama, GitHub Copilot — complementary, human-reviewed outputs

🧠 LLM/AI

PRACTICAL USAGE (COMPLEMENTARY)

VS Code + Continue with **Claude Sonnet 4.5** for refactor/test suggestions; **Ollama** for local experimentation; **GitHub Copilot** for boilerplate. Treat LLMs as complementary tools: no secrets in prompts; outputs are human-reviewed and validated with test

🎓 Education

B.Sc. in Computer Science & Engineering,

North South University, Dhaka

04/2016 – 01/2021 | Dhaka

CGPA: 2.63 / 4.00

📁 EXPERIENCE

Career Break & Freelance,

Skill Building and Client Projects

02/2021 – 10/2025

- Practiced a "spec → test → implement" workflow using VS Code Continue + Claude 4.5; Ollama for local prompts; Copilot for boilerplate (human review + tests).
- Built/maintained small client sites; handled debugging, deployments, and handovers.
- Updated fundamentals (JS/HTTP/SQL), learned PostgreSQL + Drizzle, and shipped the VAT Dashboard to production.

📁 Projects

VAT Dashboard — Live & Open Source 🔗

- VAT records, filterable tables, and summary KPIs with a clean, reusable UI.
- **PostgreSQL (Neon) + Drizzle ORM**: typed models, relations; **migrations, seeds, indexes** for read-heavy queries.
- **Node/Express** REST endpoints with input **validation** and centralized **error handling**; auth-ready structure.
- **Postman-tested** APIs with environment configs; **Vercel** deploys (env secrets, preview builds).

Client Web Work — Freelance (Selected)

- chinajec.com 🔗 — Malware cleanup; Google Analytics re-enabled; basic SEO/performance fixes.
- bjsdevelopment.com 🔗 — Built from scratch; responsive layout; performance baseline.
- stepstobusiness.co.uk 🔗 — Landing page; broken site recovery; credential recovery & handoff.

Coiffeur (SPA + API) — Learning Project

- React SPA (routing, protected pages, loading/error states) + Node/Express REST API (CORS, JSON parsing, CRUD).
- Postman-tested endpoints; clean component structure.
- Repos: github.com/saidur1529/coiffeur-client 🔗 | github.com/saidur1529/coiffeur-server 🔗

📖 Courses

Complete Web Development Course,

Programming Hero

01/2023 – 07/2023 | Dhaka

HTML5, CSS3, JavaScript, React, Node.js, ES6, basics of MongoDB/React Native

WordPress & Freelancing, Shikhbe Shobai

06/2018 – 12/2018 | Dhaka

WordPress setup/customization, basics of Fiverr & Upwork

🔗 Additional

- Familiar: WordPress (Elementor), basic SEO/performance, Figma handoff, MySQL, MongoDB (basics)
- Soft Skills: Clear communication, fast learning, documentation-first, client handling
- Availability: Immediate · Ready for full-time, on-site/remote collaboratio
