# Md. Saidur Rahman

## Full Stack WordPress Developer

saidurr1256@gmail.com +880 1515-687002 Dhaka, Bangladesh **Portfolio:** saidur-it.vercel.app **GitHub:** saidurr1220
**LinkedIn:** rahmansaidur **Upwork:** 100% Job Success

### PROFILE

Full Stack WordPress Developer with 2+ years of professional experience building custom, production-grade WordPress platforms: custom plugins, WooCommerce engineering, membership and booking systems, Stripe integrations and conversion tracking. Currently at a WordPress agency delivering **10 to 15 client projects a month** (11 delivered last month, 10 rated 5 stars). Freelancing on Upwork since 2018 with a **100% Job Success** score. Also builds Node.js and TypeScript systems that run in production. Clients across the US, UK, Europe and Australia.

### EXPERIENCE

**WordPress Developer, FB International BD** **Jan 2026 - Present**
WordPress development agency | Dhaka, Bangladesh

- Deliver 10 to 15 client projects per month, from $20 bug fixes to $2,500+ full builds; 11 delivered last month, 10 rated 5 stars
- Delivered a **$7,000 milestone project**: a real-time Bybit to Bitget trade mirroring engine (Node.js, TypeScript, PostgreSQL) running 24/7 in production
- Build custom WordPress plugins for booking, CRM, WooCommerce and subscription workflows
- Integrate Stripe, Google Maps, Zoho CRM and SMTP; implement GTM, GA4 and Google Ads tracking with production QA and rollback preparation

**Freelance Developer, Upwork** **2018 - Present**
Remote | 100% Job Success, 5.0 rating

- WordPress security work, including malware removal and site protection for an agency managing 200+ client sites
- WordPress builds, bug fixes, site migrations and backup restores for international clients

### FEATURED PROJECTS

**Mirror Control** | *Node.js, TypeScript, PostgreSQL, WebSockets*

- Real-time trade replication from Bybit to Bitget with deterministic order IDs, idempotency checks, per-symbol multipliers and automatic position reconciliation
- Operations dashboard with live margin monitoring and a one-click emergency stop

**Vault Labs Research** | *WooCommerce, PHP (OOP), ACF Pro*

- Turned a standard store into a lab research commerce platform with 20+ custom modules built only with hooks and filters, keeping core update-safe
- Dual-mode purchasing on shared inventory, store credit ledger, COA document management, multi-carrier shipping

**WeldingLeads** | *Custom plugin, Stripe, MySQL*

- Subscription lead platform: custom membership, Stripe billing with webhooks, multi-factor lead allocation and role-based access
- Fixed a preferred-state allocation bug (98 leads recovered for 30 members); staff role passed 53/53 security tests; replaced LIKE queries with an indexed lookup table

**OnRoute Couriers** | *Custom plugin, Google Distance Matrix, Stripe*

- Multi-step booking and instant quotes with a dynamic pricing engine and Stripe Checkout webhooks
- GTM, GA4 and Google Ads conversion tracking with transaction-ID deduplication

### CORE SKILLS

**WordPress**
Custom plugins (OOP), hooks & filters, custom and child themes, CPT & taxonomies, ACF, REST API, AJAX

**WooCommerce**
Custom checkout logic, HPOS-safe CRUD, template overrides, store credit and pricing rules

**Page Builders**
Elementor Pro, Gutenberg, Divi, WPBakery, Salient

**Backend**
PHP, MySQL, Laravel, Filament, Node.js, TypeScript, PostgreSQL

**Frontend**
JavaScript (ES6+), jQuery, React, Next.js, HTML5, CSS3, SCSS, responsive development

**Integrations**
Stripe & webhooks, Google Maps & Distance Matrix, Paid Memberships Pro, Tutor LMS, Fluent Forms, Gravity Forms, HubSpot, Zoho CRM, Bitrix24, SMTP

**Tracking & SEO**
Google Tag Manager, GA4, Google Ads conversions, conversion deduplication, Search Console, schema, sitemaps, canonicals, redirects

**Performance & Security**
Core Web Vitals, caching, image optimization, malware removal, site hardening

**Workflow & Tools**
Git & GitHub, staging environments, cPanel, Hostinger, LiteSpeed, FTP, Claude Code, Cursor, GitHub Copilot

### MORE PROJECTS

**California Landlords Union** | *PMPro, Tutor LMS, Astra child theme*

- Took over a stalled build under a live launch deadline; fixed registration and payment issues; built a 6-module member dashboard with 3 membership tiers and auto-generated Member IDs

**LaBeng** | *Custom theme, PHP, AJAX*

- Custom theme from scratch with dual customer/business authentication and dynamic booking; fixed a registration timeout by moving email to an async workflow

### EDUCATION

**B.Sc. in Computer Science & Engineering**
North South University, Dhaka
2021
